

At Komana Binbirdirek Hotel, we are fully committed to the principles of environmental sustainability and have adopted the following policy to minimize our environmental impact:

1. ENERGY EFFICIENCY:

We are committed to continuously improving energy efficiency by reducing the energy used in our hotel and utilizing renewable energy sources wherever possible.

2. WASTE MANAGEMENT:

Our goal is to minimize waste generation and promote recycling. We regularly review our waste management processes, develop strategies to reduce waste, and take measures to prevent harm to the environment.

3. WATER USAGE:

To protect water resources, we implement water-saving policies. We optimize water usage, prevent leaks, and apply water-efficient technologies throughout our operations.

4. ENVIRONMENTALLY FRIENDLY PRODUCTS AND SERVICES:

We aim to raise environmental awareness by offering eco-friendly options to our guests and staff. We prefer environmentally friendly products from our suppliers and promote practices that support sustainability.

5. NATURE AND ENVIRONMENTAL PROTECTION:

We are committed to protecting the natural areas surrounding our hotel and supporting sustainable tourism. We use natural resources in a sustainable way without harming local ecosystems.

6. EMPLOYEE TRAINING AND PARTICIPATION:

We educate and raise awareness among our employees on environmental issues. We encourage their participation, work together to achieve environmental goals, and cultivate a culture of environmental sustainability within our hotel.

This policy reflects Komana Binbirdirek Hotel's commitment to environmental sustainability. We aim to provide a comfortable stay for our guests while maximizing our responsibility toward the environment. We remain dedicated to the principle of continuous improvement, consistently evaluating and enhancing our environmental performance.
